Sir:

Response After Final Rejection

This communication is in response to the Final Rejection dated January 31,
2005.

Claims 1-14 are now in this case. The Applicants have filed concurrently with
this response a Terminal Disclaimer to overcome the double patenting rejection with
respect to U.S. Patent 6,770,665, which corresponds to U.S. Patent Application Serial
No. 10/244,124, the parent application of this divisional application. Since the present
application has met all the other requirements of patentability, with the filing of the
Terminal Disclaimer, the application is in condition for allowance.

Claims 1-7 are directed to insecticidal compounds; claims 8-14 are directed to
insecticidal compositions. Claims 15-21, which are directed to a method of controlling
insects with the Compounds of Claim 1, were withdrawn from consideration under a
restriction requirement.
